### **DETAILED ACTION**

Claims 1-4 and 8-27 are pending in the application.

#### ***Priority***

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 and 8-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicants' claims, which are drawn to a molecular compound containing, a phenol derivative as a constituent, is indefinite because applicants have not disclosed any chemical structure(s) of the said molecular compound. Applicants have failed to show, structurally, how the phenol derivative is attached (or bonded) to the clathrate compound to form the presently claimed molecular compound(s). Thus, the Examiner is unclear as to specifically what molecular compound(s) applicants intend to claim.

Applicants' process claims for producing the said molecular compounds are also indefinite and unclear for the same reasons given above.
